

Multi gas barrier tape system

Composition

Keytec multi gas barrier consists of self bonding polymer modified bitumen which is covered on one side by a tough multiply cross laminated polythene film and protected on one side by a backing sheet.

Product

Roll size : 150mm x 20m

Thickness : 1.5 mm

Water vapour transmission (25°C.75% rh) : 0.20g-m² per day

Radon transmission : < 3.2 - 10-10m/s

Radon permeability : < 4.8 - 10-13m²/s

Puncture resistance : 220N
